

Filer

Access

In order to [access the filer](#) you need to be inside the zhdk-net. If you are outside ZHdK, you need to use a [VPN connecton](#) to the ZHdK first.

Server: **filer.zhdk.ch/collaboration/innolab**

Mac: smb:filer.zhdk.ch/collaboration/innolab Windows: \\filer.zhdk.ch\collaboration\innolab =====
Organisation ===== These pages intend to describe how to use the Filer. Under Each folder you will find an individual input on what kind of infos you can expect to find, what data should be stored where and how you should structure the data. **Inside the filer all our knowledge we gather during the process of the project - be it in form of howtos, tutorials, animations, code or models - will be stored. Knowledge is our most precious result and we should take care to create a solid and clean house for it.** 00_howtos - all knowledge on how to do things 01_assets - all things to play with 02_personal - all things personal 03_projects - all things for your project 05_workshops - all things for / from a workshop 06_research - all research 07_lehre - all teaching 08_software - all things soft 09_hardware - all things hard 10_infrastruktur - all about where we play 11_mediathek - all about what inspires us 12_publication - all things we want to inspire with
