Motive 2.x

Official Documentation

Please follow these steps for each motion capture session:

1. Turn on Power for motion capture cameras and computer
2. Setup Motive Session
3. Calibrating the System
4. Setup the tracking suit or Setup the 6 rigidbody skeleton
5. Create a rigid body
6. Stream data
7. Record animations
8. Export animations

Installing Motive 1.8.0

Unfortunately it is not possible to have both applications running on the same system. they are actually installing incompatible drivers, so you have to

1. uninstall first the previous Motive (and don't forget the optitrack drivers!!),
2. restart the machine, and then
3. install the other Motive.
