Motive 2.x

Official Documentation

Please follow these steps for each motion capture session:

1. Power for motion capture cameras and computer
2. Session Setup
3. Calibration
4. Setup Tracking Suit or 6 Rigid Body Skeleton
5. Setup Rigid Bodies
6. Data Streaming
7. Recording
8. Exports

Installing Motive 1.8.0

Unfortunately it is not possible to have both applications running on the same system. they are actually installing incompatible drivers, so you have to

1. uninstall first the previous Motive (and don't forget the optitrack drivers!!),
2. restart the machine, and then
3. install the other Motive.
