

Setup New Session inside Motive

Before you start capturing you need to setup your session.

first you have to open the data-pane:

then press the plus-icon to select a new session folder

you need to create a new session inside your projetct on your filer:

I:\Innolab\03_projects\180101_Pilot_DemoProject\01_capturing

if necessary create a new folder with a distinctive name with a date,

Session_180329

then you need to remove all the other sessions from previous uses:

ATTENTION: PLEASE make sure you only REMOVE the folders. DO NOT DELETE THEM!!!
