

Unreal

Installing C++ Tools

You need to install [Microsoft Visual Studio 2017 Community](#)

Once installed, you need to install all necessary tools:

- Menu > Extras > Tools and Features... - for Visual Studio Community 2017 -> change... - select All tools for Windows (3) → universal windows plattform / desktop development / .NET desktopdevelopment

If Unreal complains about missing paths, [maybe a registry entry](#) needs to be changed.
