

# Unreal

## Installing C++ Tools

You need to install [Microsoft Visual Studio 2017 Community](#)

Once installed, you need to install all necessary tools:

1. Menu > Extras > Tools and Features...
2. for Visual Studio Community 2017 → change...
3. select All tools for Windows (3) → i.e. universal windows platform / desktop development / .NET desktopdevelopment

If Unreal complains about missing paths, [maybe a registry entry](#) needs to be changed.
