

What kind of AI do we want? Bringing artistic and technological practices together.

In this seminar, we look at “artificial intelligence” (AI) as a historical-material practice. That is, we understand AI as shaped by the concrete conditions of its development and use. We will address the current discourse within our democratically shaped society around bias in AI, trustworthy AI, and look at decolonial as well as indigenous approaches to AI.

This is a joint module by ZHdK (Felix Stalder) and by ETH Zurich (Nora al-Badri / Adrian Notz)

Date: March 14-18, 2022

Time: 10:00-13:00 / 14:00-17:00 Uhr

Location: Monday-Wednesday

- ETH, Room ML H37.1 [Map](#)
- ETH MaschinenLabor
- Sonneneggstrasse 3, 8092 Zürich

Location: Thursday-Friday

- ZHDK, Room ZT 6.K04
- Zürcher Hochschule der Künste Toni-Areal,
- Pfingstweidstrasse 96, 8031 Zürich

Course requirements:

- Presence in class (at least 80% of the time)
- Active contribution to discussions in class
- Active participation in group work and group presentations

Monday, 14.03.

Morning: art & science

Afternoon: Indigenous AI

Guest: [Tiara Roxanne](#), Postdoctoral Fellow at Data & Society in NYC, Indigenous Mestiza scholar and artist based in Berlin.

Thursday 17.03.

Morning: Art & AI

Task for each group:

Develop a conceptual sketch of a project that deals with one or more issue(s) that are particularly relevant to the group from the discussions on bias, ethical AI, digital colonialism, or indigenous AI. The sketch project can be based on AI, but doesn't need to be. You can use whatever medium you like to address the issues.

Afternoon: Group Work
