Simple example of bias in machine translation:

- Assumption of gender, statistical vs linguistic view

Exploring Bias by artistic means

Mediengruppe Bitnik, State of Reference, 2017

Group Work

- create groups of ~4 people
- play around with ChatGPT to document a specific bias /missinformation (30 minutes)
- brainstorm an application by which to make use of this bias/missinformation at scale (30 minutes)
- Make a short (5-minute) presentation on the bias and it application for (ab)use
