Zehra Balca

Autumn semester 2017

Experimenting with screen printed postcards:

Details of Elaeagnus Angustifolia trees: Tried to reproduce the colour of the leaves and flowers with the help of my painter friends.

I will look into working paint that changes color with light.

I will make rasterizing and color experiments with photographs of Elaeagnus Angustifolia trees in Istanbul and Zurich.

I am thinking about screen printing a QR code. http://www.qr-code-generator.com

Dominique@Balca: Concerning colour changing colour: did you find suppliers. Do you need some addresses?
