

programm-folder design museum london

The Design Museum's wide-ranging programme for Schools and Colleges brings the **creative world of contemporary design** into the lives of students and teachers alike. Complementing and extending Design & Technology, Art & Design, Enterprise Education and the new Creative & Media Diploma, our activities offer students **fresh insights** into design practice today. Activities take place within the museum's dedicated Learning Centre and exhibition spaces, in a stunning riverside location, just 15 minutes walk from London Bridge. Opportunities include Hands-On Design Workshops for primary pupils and Product Evaluation Workshops for secondary students, both using our **unique product handling collections**, featured overleaf. At the heart of our learning programme is the ambition to inspire a lifelong interest in design, and **nurture the next generation of critical consumers and creative professionals**, celebrating and exploring the role of design in everyday life.
